

## Vincent Dubourg Monography

### DETAILS

Vincent Dubourg's striking body of work is carefully exposed in this volume with breath-taking images revealing the innate dichotomy of his work – perfect control confronted with chaos. Vincent Dubourg has distinguished himself as a dynamic star of contemporary design. Whilst his works acknowledge the tradition of functional design and cabinet making, Dubourg offers a new perspective. His subversive approach introduces motion and fluidity, as shelves seem to fly from the walls and cabinets explode from the inside out.
